A Canadian's Opinion of Poultry Foods.

Experience is the best teacher every-
time. It is fortunate that all do not
have to go through the same experi-
ence. Some can have the benefit of
that which others have gone through.
What W. J. McClary of Frost Village
Conn., says about the use of Poultry
Foods will be of special value to those
who keep poultry. Here is his letter:
"I have been using 'Page's Perfected
Poultry Food' for some time past with
excellent results. I would say that in
feeding I get better results than with
any other food on the market and at a
smaller cost."

Any one sending his address on a
postal card to C. S. Page, Hyde Park,
Vt., and mentioning this paper, will re-
ceive by mail, free, postpaid, a sample
package of "Page's Perfected Poultry
Food."

Dr. Wood's Norway Pine Syrup seems
especially adapted to the needs of the
children. Pleasant to take; nothing in
its influence. It is the remedy of all
remedies for every form of throat and
lung disease.

Ten thousand demons gnawing away
at one's vitals couldn't be much worse
than the tortures of itching piles. Yet
there's a cure. Doan's Ointment never
fails.

Burdock Blood Bitters gives a man a

vigorous body—makes him fit for the

Croup instantly relieved. Dr. Thom-
as' Electric Oil. Perfectly safe. Never

NO MAN STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of
London was firmly of the opinion that
disorders of the stomach were the most
pervasive source of human ailments in
general. A recent medical writer says
"every feeling, emotion and affection
reports at the stomach (through the
system of nerves) and the stomach is
affected accordingly. It is the vital
center of the body." * * *

He continues, "so we may be said to live
by (and he might well have said through)
the stomach." He goes on to show that
the stomach is the vital center of the
body. He says "the function of di-
gestion in its several stages is to pre-
pare the food in forms which are suit-
able to be added to the structure,"

meaning the structure of our bodies.
His continuance, "every physical action
from simple breathing, thinking and
circulating of the blood to the most
active bodily exertion, and the func-
tions of the structure (of our bodies)
and they become dead and so require
to be taken away speedily. Much of
the food which we take, and especially
when unwholesome or in excess, adds
to the waste material, and when it has
undergone chemical changes in it all
more mischievous." Then he goes on
to the effect that the nervous system
prompts every part of the circulating
system. He says "it gives its message
every moment to the infinite number
of glands and follicles to unload them-
selves in digestion or dyspepsia. The
current of blood may carry it away."

"When these two processes of nutri-
tion and excretion are thus carried on
with equal activity we are in health,
but when this equilibrium does not
exist there comes disorder and disease.
The common form of such derange-
ment is indigestion or dyspepsia. The
function of nutrition is interrupted
and all the operations which depend
upon it go wrong. Under these condi-
tions it has a way of appearing in
other types of disorder. Many of these
often mislead physicians. Other parts
of the organism are likely to be in-
volved, and we may find consumption,
kidney complaint, hepatic (liver) dis-
orders, hysteria and even mental
alienation (derangement)." He says
"it may be observed that deranged
persons have a woe-be-gone expres-
sion, offensive breath, irregular action
of the bowels, indigestion and other
like conditions of dyspepsia."

The foregoing is no doubt a rational
view of the sad havoc worked in the
human system by indigestion and dys-
pepsia, torpid liver and kindred dis-
orders, which are generally associ-
ated with or followed by many other
diseases of diverse appearance, but all
depending upon the weak and dis-
ordered stomach. Cure the stomach
weakness and you cure all these dis-
eases and derangements.

For weak stomachs and the conse-
quent indigestion or dyspepsia, and
the multitude of various diseases which
result therefrom, no medicine can be
better suited as a curative agent than
Dr. Pierce's Golden Medical Discovery.

The Golden Seal root, Stone root,
Mandrake root and Black Cherry-
bark are all recommended by such
eminent authorities as Dr. Barlow,
of Jefferson Medical College; Prof.
John King, author of the "AMERICAN
DISPENSARY"; Prof. John M. Send-
er, late of Cincinnati; Dr. William
Paine, author of Paine's Epitome of

Medicine; Dr. Hebart A. Hare, of
the University of Pa.; Prof. Laurence
Johnson, M. D., Medical Dept., Uni-
versity of N. Y.; Prof. Edwin M. Hale,
M. D., Professor of Materia Medica
in the Hahnemann Medical College,
Chicago, and many others, as reme-
dies for indigestion, dyspepsia, tor-
pid liver as well as for bronchial,
throat and lung affections, as will be
seen from reading a little booklet
recently compiled by Dr. E. V. Pierce,
of Buffalo, N. Y., who will send the
same on request, by postal card or
letter, to any address free. This little
booklet tells of what Dr. Pierce's cele-
brated medicines are made, and gives
the properties and uses of each and
every ingredient entering into their
composition. Write Doctor Pierce, as
above and receive it by return post.

Queen's root, or Silingua, is an in-
gredient entering into the Golden
Medical Discovery" highly recom-
mended by several of the above men-
tioned authorities for the cure of chronic
or lingering bronchial, throat and lung
affections, public speaker's sore throat
attended with hoarseness, dry, rasping
cough, and kindred affections. It is
only in Queen's root specific in its curative
action in all these affections, but it
is greatly assisted by the combination with
it of Golden Seal root, Stone root, Black
Cherrybark and Bloodroot, with which
it is blended in just the right propor-
tion. Pure, triple refined glycerine
also greatly enhances the effectiveness
of all these agents in the cure of chronic
and lingering coughs, being a valuable
demulcent, also antiseptic, and a nutri-
tive of great value, especially useful in
all wasting diseases, as in incipient con-
sumption and other serious affec-
tions. "Golden Medical Discovery" is
a sovereign remedy in all catarrhal
affections, whether affecting the nasal
passages, the stomach, bowels or pelvic
organs and the reason why will be
learned by reading the little booklet
sent above. Send for it now.

In chronic catarrh of the nasal pas-
sages, it is important that while taking
the "Golden Medical Discovery" as the
most effective constitutional treatment
for this terribly distressing and most
obstinate affection that the nasal pas-
sages should be cleansed two or three
times a day by the use of Dr. Pier-
ce's Catarrh Remedy used accord-
ing to the directions which accompany
the name.

Dr. Pierce's Pleasant Pellets cure
biliousness, sick and bilious headache,
dizziness, costiveness, or constipation
of the bowels, loss of appetite, coated
tongue, sour stomach, windy belch-
ing, "heartburn," pain and distress
after eating, and kindred derangements
of the liver, stomach and bowels. Per-
sons subject to any of these troubles
should never be without a vial of the
"Pleasant Pellets" at hand. Put up in
glass vials, tightly corked, therefore
always fresh and reliable. One little
"Pellet" is a laxative, two are cathar-
tic. They regulate, invigorate and
cleanse the liver, stomach and bowels.

Adviser, in plain English, or Medicine
Simplified, 1008 pages, over 700 illus-

Mayor J. F. Manning makes this state-
ment about the system:

"The effluents from barns and
out-houses is continually draining into
our water supply. It is a menace to
the people. Why should we wait until
there is an epidemic? The total cost
of purchasing the land about the source
outright would not exceed \$10,000. Our
profits from water rents amount to
about \$18,000 a year. Why not use the
sum required from this income?"

RAILROAD LOSSES.

Independent Beef Dealer Wins Against
the New Haven.

Providence, R. I., Dec. 20.—A decision
by the interstate commerce commission
against the New York, New Haven &
Hartford Railroad Company and in sup-
port of the charge of discrimination
made against the corporation by D. W.
Miner, a local independent beef dealer,
was made public by Mr. Miner yester-
day.

The commission heard Mr. Miner's
charges in this city last September. It
was alleged by Miner that the railroad
officials refused to permit his beef cars
to be at a point in the freight yard most
convenient for him (the complainant) and
that a serious monetary loss was caused
by the long hauls which the ruling made
necessary. Although the complainant
had no assurances when he erected a
stockhouse near a certain section of the
yard that he would have his freight
delivered there, the commission finds that
the defendant, having it in his power
to put the complainant more nearly upon
a level with his competitors, ought in
justice to do so, and that its refusal is
an undue prejudice against the traffic
of the complainant.

The report concludes:
"We have decided, therefore, to make
an order in favor of the complainant
unless the defendant, upon further con-
sideration, shall see fit to permit the
unloading of these cars in its usual
street yard. In doubtful cases like this
we cannot overlook the consideration
that no order of ours can be made bind-
ing upon the defendant until it has passed
the scrutiny of the courts while, if
we err in our construction of the law
against the complainant, he has no re-
lief, since from our decision he cannot ap-
peal. If the doubtful question were one
of fact, when our finding might have
some evidentiary force, it would be
otherwise."

YEAR'S IMMIGRATION 1,026,499.

Greater Number Than Ever Emigrated
to Another Country in Twelve Months.

No other nation on earth has ever re-
ceived and accepted 1,026,499 immigrants
in a single year, the number received
into the great American family from
other countries in the year ended June
30 last. The total is about equal to the
number of soldiers and sailors engaged
in the Russo-Japanese war from first
to last. Where did they come from?
Let us turn to the annual report for
1905 of Frank P. Sargent, Commissioner
of Immigration, for the data:
